

SANCTUARY EXPLORATIONS

KENT ISLAND RESTORATION DAY

Saturday, September 24th 2016 10am-2pm

Join Greater Farallones Association and Marin County Parks to help restore Bolinas Lagoon's Kent Island. This important dune-capped flood shoal island is overrun with non-native plants. After a short boat ride to the island, we will learn about the dynamic island and dune ecology while helping to remove these invaders, strengthen lagoon function, and restore the original dune habitat. We are already seeing the return of native plants like the pink sand verbena, but we need your help to continue our progress!

BOOK IT!
